

## Horn Petroleum Second Quarter of 2014 Financial and Operating Results

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Aug. 8, 2014) - Horn Petroleum Corporation ("Horn" or the "Company") (TSX VENTURE:HRN) is pleased to announce its financial and operating results for the three and six months ended June 30, 2014.

- During the six months ended June 30, 2014, Horn increased its investment in intangible exploration assets by \$0.9 million. The majority of the costs incurred during the first six months of 2014 related to Production Sharing Agreement ("PSA") related expenditures and general and administrative costs.
- The Company continues to assess the operating environment in each of the Dharoor Valley and Nugaal Valley exploration areas from logistical, community and security perspectives. These assessments will provide critical information required to plan operations in the Company's exploration areas.
- The Company actively engages with a range of governments and organizations, domestic and international to progress planned exploration activities.
- Efforts are now focused on making preparations for a seismic acquisition campaign in the Dharoor Valley area which will include a regional seismic reconnaissance grid in the previously unexplored eastern portion of the basin as well as prospect specific seismic to delineate a drilling candidate in the western portion of the basin where an active petroleum system was confirmed by the most recent drilling at the Shabeel-1 and Shabeel North-1 locations. The Company has identified a suitable location to drill an exploration well in the Nugaal Valley block. However, given operational and political issues, a decision to move ahead on this will not be taken until adequate resolution is achieved.
- Horn continues to actively pursue new venture opportunities.
- Horn continues to investigate potential joint venture partnerships for its Dharoor Valley and Nugaal Valley exploration areas.
- In connection with the non-brokered private placement completed in June 2012, 9,546,248 share purchase warrants were issued. Each share purchase warrant entitled the holder to acquire one common share of Horn at a price of CAD\$1.20 over a period of two years. In June 2014, 9,546,248 warrants expired unexercised. At June 30, 2014, the Company has no remaining warrants outstanding.
- As at June 30, 2014, the Company had cash of \$2.6 million and working capital of \$2.4 million as compared to cash of \$3.6 million and working capital of \$4.0 million at December 31, 2013.

Horn President and CEO, Jim Phillips, commented, "We continue to actively pursue new venture opportunities and we are continuing to work with a range of governments to progress planned exploration activities in Puntland."

## Outlook

Based on the encouragement provided by the Shabeel wells, the Company and its partners entered the next exploration period in both the Dharoor Valley and Nugaal Valley PSAs which carry a commitment to drill one well in each block within an additional three year term ending October 2015. The current operational plan is to contract a seismic crew to acquire additional data in the Dharoor Valley block and to hold discussions with the Puntland Government regarding advancement of drill ready prospects in the Nugaal Valley block. The focus of the Dharoor Valley block seismic program will be to delineate new structural prospects for the upcoming drilling campaign.

Horn has been in discussions with potential joint venture partners and is actively pursuing new venture opportunities. Somalia is going through an unprecedented period in its history with a real opportunity for all stakeholders to assist in the rebuilding of the country. The first internationally recognized Federal government took power in 2012 following over 20 years of transitional or no government. In Puntland, a new President was voted into power in January 2014 and the transfer took place peacefully. The Company actively engages with a range of governments and organizations, domestic and international, around how Somalia can best develop a stable Federal state including the institutions and systems it needs to properly manage its natural resources.

Horn holds a 60% working interest in the Dharoor and Nugaal Valley blocks and is the operator. The other partners in the blocks are Range Resources (20%) and Red Emperor (20%). Africa Oil Corp. holds an approximate 45% equity interest in Horn.

*Horn Petroleum Corporation is a Canadian oil and gas company with assets in Puntland, Somalia. The Corporation holds a 60% interest and operatorship in the Dharoor and Nugaal blocks encompassing a Jurassic Rift Basin on trend and analogous to the large oil fields in Yemen. The Corporation's shares are listed on the TSX Venture Exchange under the symbol "HRN".*
