VANCOUVER, BRITISH COLUMBIA--(Marketwired - Aug. 28, 2013) - Horn Petroleum Corporation (TSX VENTURE:HRN) ("Horn" or the "Company") is pleased to announce its financial and operating results for the three and six months ended June 30, 2013.

- During the six months ended June 30, 2013, Horn increased its investment in intangible exploration assets by \$1.7 million. The majority of the costs incurred during the first six months of 2013 related to Production Sharing Agreement ("PSA") related expenditures and general and administrative costs.
- Efforts are currently focused on making preparations for a seismic acquisition campaign in the Dharoor Valley area which will include a regional seismic reconnaissance grid in the previously unexplored eastern portion of the basin as well as prospect specific seismic to delineate a drilling candidate in the western portion of the basin where an active petroleum system was confirmed by the recent drilling at the Shabeel-1 and Shabeel North-1 well locations. The Company continues to pursue efforts to drill an exploration well in the Nugaal Valley block and is working with the Puntland government to move this project forward.
- Horn continues to investigate potential joint venture partnerships and is reviewing new venture opportunities in the region.
- As at June 30, 2013, the Company had cash of \$5.4 million and working capital of \$5.1 million as compared to cash of \$9.5 million and working capital of \$4.4 million at December 31, 2012.

We have committed to the next exploration phase in both PSAs and plan to aggressively explore both areas to confirm this potential. We are also optimistic that the political progress in Somalia will continue and allow oil and gas exploration in the region to expand."

Outlook

Based on the encouragement provided by the Shabeel wells, the Company and its partners entered the next exploration period in both the Dharoor Valley and Nugaal Valley PSAs which carry a commitment to drill one well in each block within an additional three year term ending October 2015. The current operational plan is to contract a seismic crew to acquire additional data in the Dharoor Valley block and to hold discussions with the Puntland Government regarding drill ready prospects in the Nugaal Valley block. The focus of the Dharoor Valley block seismic program will be to delineate new structural prospects for the upcoming drilling campaign.

Horn has been in discussions with potential joint venture partners and also is reviewing new venture opportunities in the region. Somalia is going through an unprecedented period in its history with a real opportunity for all stakeholders to assist in the rebuilding of the country. The first internationally recognized Federal government took power in 2012 following over 20 years of transitional or no government. The Company actively engages with a range of governments and organizations, domestic and international, around how Somalia can best develop a stable Federal state including the institutions and systems it needs to properly

manage its natural resources.

Horn holds a 60% working interest in the Dharoor and Nugaal Valley blocks and is the operator. The other partners in the blocks are Range Resources (20%) and Red Emperor (20%). Africa Oil Corporation holds an approximate 45% equity interest in Horn.

Horn Petroleum Corporation is a Canadian oil and gas company with assets in Puntland, Somalia. The Corporation holds a 60% interest and operatorship in the Dharoor and Nugaal blocks encompassing a Jurassic Rift Basin on trend and analogous to the large oil fields in Yemen. The Corporation's shares are listed on the TSX Venture Exchange under the symbol "HRN".
