He is well known in the Lundin Group and has executed for us in challenging roles across several regions and sectors in the past. Africa Energy reminds me of the early days of Lundin Petroleum where we created value through high impact exploration acquired at the bottom of the commodity price cycle. It is our intention to build Africa Energy into a material Africa-focused independent oil and gas company. Garrett will help us deliver on that vision."

Mr. Heppenstall continued, "The Board would like to thank Jim for launching Africa Energy, putting together an exceptional technical team in Cape Town and closing our first transaction offshore South Africa.
